WHERE ACCIDENTS OCCUR

- Most accidents occur within 25 miles of where we live and work
 - We become very familiar with the roads, streets and byways that we travel everyday, we become complacent.
 - Our mind has a tendency to wander to daily problems and not on the task of driving.
 - The result - we do not see or are not aware of the dangers that suddenly appear.

PRIMARY CAUSES OF POV ACCIDENTS

Fatigue: Stay Awake To Stay Alive

- Large percentage of accidents involve running off the road at night.
- Nodding off for 2-3 seconds.
 - Melatonin
 - Boredom
 - Alcohol

Buckle Up!

- Some people are thrown clear in a crash and walk away without a scratch.
- I'm a careful driver-never had an accident. Good drivers don't need them.
- Seatbelts are too much trouble, fastening-unfastening-fastening again.
- I only use them on high-speed roads. It's a nuisance around town.
- I don't need to wear a seat belt just to drive to the grocery store.
- What if my car caught fire or went off the road into water.
- Seat belts are uncomfortable and wrinkle my Class A jacket.

Booze & Lose

- Don't drive after consuming two or more drinks in one hour.
- Better yet, [DON'T DRINK AND DRIVE!!](#)
- What it could cost you:
 - Prison Sentence
 - License suspension/revocation
 - Fines and Service Fees
 - Mandatory drug/alcohol education or treatment
 - Severe career repercussions:
 - Barred from reenlistment
 - Reduction in grade
 - General Letter of Reprimand
 - Vehicular Homicide charges

Speed Shatters Lives

- Greater stopping distance
- Exceeding handling characteristics
- Air Bag misconception

How to Avoid Traffic Collisions

- Stay Ahead Of The Situation
- Stay Alert
- Stay Back
- Start and Stopping Sooner
- Signal Your Intentions
